WORK

Game Designer, Film Director, Writer, Artist

Wanderstar UG **May 2023 - Now**

Past year I've been busy with directing and producing a short film as well as funding and building a video game and pursuing my passions in creative media:

- Wrote, directed and produced a short film for an Anthology production, led a shoot of 12 people and edited the film (film link, BTS link)
- Successfully funded a high concept & prototype stage for a video game
- Created pitch deck and GDD
- Producing a vertical slice (writing, world building, level design, map layouts, game design, content creation, marketing)

Product Owner & Designer

unfold.co **June 2020 - May 2023**

Led multiple teams to deliver droniesnft.com that profited $3m.

- Coordinated and managed 9 teams across design & development
- Strategized and created plan for a marketing campaign
- Designed product for multi-million client accounts in Tech & Healthcare industries by creating design strategy, UX concepts and design systems.

UX / UI Designer

Unity - Bolt Visual Scripting **Nov 2019 - Jan 2020**

Led a UI / UX redesign for Bolt 2.0 version. Delivered following:

- Provided UX documentation to improve current UI
- Created high-fidelity mockups.
- Crafted 278 icons for each Unity API function
- Exported icons directly into the engine and iterated to make pixel-perfect design at a swift pace.

TEACHING / SPEAKING

Figma For Beginners (Figma course)
Tulsa UX (Co-Organizer, speaker)
Built courses for Adobe XD Live

WORK

Product Designer / Owner

daedalus.am **Sep 2022 - Aug 2023**

Creating an interactive comic book experience by utilizing decades of experience and new AI technologies.

- Story writing & world creation
- Generating 9000 images and manipulating them into a coherent story
- Animating 12 panels in Rive and creating a webpage for browsing experience and licensed soundtrack
- Creating a brand and merch product line
- DAEDALUS: ALPHA Film direction, pitching, production and editing

UX / UI Designer

BadJupiter **May 2018 - May 2019**

Led a UX and UI design for a chat-bot & web application BadJupiter. Drove an uptick in new user sign ups, with a successful launch on Product Hunt.

- Researched users and wrote personas
- Optimized onboarding of the app
- Drafted wireframes
- Drew user flows
- Prototyped interactions in Framer and Figma
- Created high-fidelity UI mockups

WEB DEVELOPER AND DESIGNER

Idea Ranch **Nov 2015 - Apr 2017**

Led design and development of multi-million dollar websites for brands such as Toyota, Remington, Christie Cookies Co and Carhartt

- Delivered wireframes and designs in Sketch and Photoshop
- Provided UX documentation for design and dev teams
- Drafted wireframes
- Created information architecture documents for large websites
